Capacity Building

The Capacity Building training enhances the effectiveness of substance abuse prevention coalitions and stakeholders. It provides customized training to improve their capacity to address substance misuse in their communities. Emphasis is placed on data-driven planning, cultural competence, and utilizing the Strategic Prevention Framework (SPF).

Strategic Action Planning

This training enhances participants' knowledge of coalition's role in community-level change and strategic action planning. It covers conducting community assessments, developing strategic plans, and implementing effective action plans. Emphasis is placed on addressing underage drinking and vaping without relying on fear-based strategies.

Advocacy and Policy

The Advocacy and Policy training provides an introduction to advocacy, the legislative process, case statements, and elevator speeches. It covers different advocacy strategies and action planning. Advocacy involves taking actions for change, while lobbying seeks to influence legislators and regulatory agencies. The training clarifies when to advocate and when to lobby.
